

Dighton Water District Chairman Presents Award

Town of Somerset Water Superintendent Bob Lima received an award from the Dighton Water District at the District's 2013 Annual Meeting.

Presenting the award, Chairman of the Dighton Water District Board of Commissioners Patrick W. Menges praised Superintendent Lima, whose Somerset Water Department has a long standing inter municipal relationship with Dighton. The two public water systems cooperate in a variety of ways, including transporting water quality samples, protection of water resources, and shared service. Dighton hosts a Somerset Water Department well, and some Dighton public water customers are serviced by Somerset.

The Dighton Water District's award to Mr. Lima said, "Thank you for being a friend." Mr. Lima acknowledged his award with friendly remarks, underscoring the cooperation that has subsisted for years between the Somerset Water Department and the Dighton Water District.

Mr. Menges said, "Superintendent Lima has been the pillar of the positive cooperation that we have enjoyed these many years."
